INTRO

VERSE 1:

At creation's primal birth
You were hovering o'er the earth
Darkness fled as day began
Life was formed at your command
Down into our present age
You've determined every stage
Though this world reveres the night
You promote the one True Light

TURN (same as intro)

VERSE 2:

Spirit blowing where you will
Seeking humble hearts to fill
Come restore what now is lost
Spirit, God of Pentecost
Strengthen now what still remains
Fortify our love that wains
From our slumber now revive
Till we really truly live

_to TURN

VERSE 3:

In these final days we're in
Spirit come in pow'r again
As we face the coming storm
Signs and wonders now perform
Though the Father's love is great
Warn the world the time is late
Spirit keep us, hold us fast
Till we're with the Lord at last
Spirit keep us, hold us fast
Till we're with the Lord at last
Till we're with the Lord at last
